Diagram illustrating a 3D structure, likely a protein or molecular model, showing a grid of points (nodes) and connecting lines (edges). The structure is composed of three main vertical columns, each with a shaded gray region.

The nodes are labeled with numbers 1 through 37, and some are highlighted with blue circles. The connections are shown as solid green lines and dashed gray lines.

Key features include:

The diagram illustrates a hierarchical structure, likely a tree or a network, with nodes and connections. The nodes are numbered 1 through 40. The connections are represented by lines of different styles and colors: solid black, solid green, dashed gray, and dotted gray. The diagram is divided into three horizontal sections. The top section contains nodes 1 through 14, the middle section contains nodes 15 through 31, and the bottom section contains nodes 27 through 40. A large gray shaded area covers the bottom half of the diagram. The text "cy_descender" is located near node 38.
